Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

1. Claims 18-28, 53-62 and 70 have been cancelled. Claims 1-17, 29-52, and 63-69 are now pending.

Allowable Subject Matter

2. The indicated allowability of claims 1-17, and 29-52 are withdrawn in view of newly discovered issues under 35 USC 101. Rejections based on the new grounds of rejection follow.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-17 and 29-52 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

5. Claims 1-6 and 29-38 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. While the claims recite a series of steps or acts to be performed, a statutory "process" under 35 U.S.C. 101 must (1) be tied to particular machine, or (2) transform underlying subject matter (such as an article or material) to a different state or thing. See page 10 of In Re Bilski 88 USPQ2d 1385. The instant claims are neither positively tied to a particular machine that accomplishes the claimed method steps nor transform

underlying subject matter, and therefore do not qualify as a statutory process. The claimed method including steps of defining, declaring, creating, receiving, retrieving, examining, using, incorporating are broad enough that the claim could be completely performed mentally, verbally or without a machine nor is any transformation apparent. For example all the method steps may be completely performed mentally, without a machine.

6. Claims 8-17 and 40-49 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claimed subject matter relating to a system comprising a plurality of link identifiers and a reference file, index file and processing module is deemed to be nonfunctional descriptive material that does not exhibit any functional interrelationship with the way in which the claimed processes are performed. Such descriptive material is not a process, machine, manufacture or composition of matter.
